1	@UNESCO @UNAIDS @UNFPA @UNICEF @UN_WOMEN @WHO launch revised Technical Guidance on comprehensive #sexualityeducation http://on.unesco.org/2mf0OD2
2	NEW – revised Technical Guidance presents evidence-informed approach to comprehensive #sexualityeducation http://on.unesco.org/2mf0OD2
3	Guidance on comprehensive #sexualityeducation shares research-based recommendations to guide educators & policy-makers http://on.unesco.org/2mf0OD2
4	Guidance on comprehensive #sexualityeducation provides key concepts& learning objectives for all stages of development http://on.unesco.org/2mf0OD2
5	Comprehensive #sexualityeducation develops accurate knowledge & skills that contribute to healthy relationships http://on.unesco.org/2mf0OD2
6	Evidence shows abstinence-only programmes are ineffective - #sexualityeducation must be comprehensive http://on.unesco.org/2mf0OD2

7	Too many #youth receive confusing info on #sexualityeducation - leaving them vulnerable to exploitation & other harm http://on.unesco.org/2mf0OD2
8	Through comprehensive #sexualityeducation, #youth recognize their rights, respect those others&advocate for those whose rights are violated
9	The evidence says comprehensive #sexualityeducation doesn't increase sexual activity,sexual risk-taking behaviour or STI/HIV infection rates
10	Comprehensive #sexualityeducation addresses ways gender norms influence inequality & how this impacts overall health & well-being of #youth
11	Globally, only 34% of #youth have accurate knowledge about HIV - comprehensive #sexualityeducation http://on.unesco.org/2mf0OD2
12	If we do not meet young people's need for comprehensive #sexualityeducation we cannot achieve the #SDGs http://on.unesco.org/2mf0OD2
13	In some countries 2in3 girls don't know what is happening at onset of menstruation - comprehensive #sexualityeducation http://on.unesco.org/2mf0OD2
14	Pregnancy & childbirth complications 2nd cause of death among 15-19 year old girls - comprehensive #sexualityeducation http://on.unesco.org/2mf0OD2
15	200 million girls &women have undergone female genital mutilation in 30 countries – need for #sexualityeducation critical http://on.unesco.org/2mf0OD2

1	The need for good quality comprehensive #sexualityeducation (CSE) is critical! -Only 34% of #youth around the world have accurate knowledge about HIV -Pregnancy & childbirth complications are 2nd cause of death among 15-19 year old girls -In some parts of world, 2 in 3 girls have no idea what is happening at onset of menstruation. Check out revised Technical Guidance on CSE by @UNESCO @UNAIDS @UNFPA @UNICEF @UN_WOMEN @WHO
2	Myths around comprehensive #sexualityeducation (CSE) busted. Evidence shows that it does not increase sexual activity, sexual risk-taking or STI/HIV infection rates. Instead, it helps young people better understand #SRHR & helps them navigate challenges while growing up, like puberty, early pregnancy, relationships & STIs. Technical Guidance to support CSE programmes now revised by @UNESCO @UNAIDS @UNFPA @UNICEF @UN_WOMEN @WHO http://on.unesco.org/2mf0OD2
3	Well-trained & supported teachers in schools should teach comprehensive #sexualityeducation (CSE). That way, CSE reaches large numbers of young people before they become sexuality active, and the content is age-appropriate. @UNESCO @UNAIDS @UNFPA @UNICEF @UN_WOMEN @WHO have revised Technical Guidance viewed here: http://on.unesco.org/2mf0OD2
