Disability-Inclusive Data Plans and Next Steps

By Dr. Kanit Pamanee and Thai Team
Policies and Strategies regarding Education of Children with Disabilities

• Provide quality education and support services for children with disabilities in all levels.

• Promote inclusive education with quality and safety.

• Prepare teachers in all educational sectors with knowledge and skills in special education.
Policies and Strategies regarding Education of Children with Disabilities (Cont.)

• Increase graduation rate in compulsory education and entry rate in higher education.

• Prepare students with disabilities with vocational and independent living skills.

• Legal Amendment and work integration improvement among educational stakeholders.

(National Strategic Plan for Educational Improvement for Students with Disabilities B.E. 2566-2570)
Disability Data Sources

- Data Management Center (DMC) used in OBEC.
- School MIS used in OBEC.
- Special Education Technology System (SET) used in Special Education Bureau.
- IEP Online System used in Special Education Bureau.
- CAPER used in Special Education Bureau and Nonformal/Informal Education Office.
EMIS Form Currently Used

Next Steps for Disability Data Management

• Using the same disability categories across all public sectors.

• Data linking among all public sectors for real-time use.

• Work integration improvement among related stakeholders for smooth transition.
THANK YOU
